ASSEMBLY GUIDE SUPPLEMENT
for in-wall pool steps

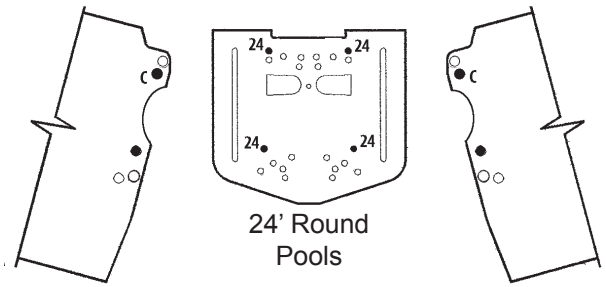

Please refer to the diagrams below for your pool size.
Only use the longer top rails that are included in the step top rail/connector pack.
When attaching the top rail to the vertical end cap use the hole pattern for your size pool.
The diagram shows the attachment pattern for the left and right side of the steps, only one side of the vertical end cap will be used during the installation for the left side and right side of the step.

Left side of step (outside of pool)

16' Round
24'x16, 28'x16' & 32'x16'
Oval Pools
